PUSHING BOUNDARIES & ACHIEVING MORE

CWC is ready to kick off 2025 with a bang! Fueled by our unwavering commitment to excellence and teamwork, we are poised to achieve even greater success in the year ahead. Together, we'll continue to set the standard, tackle new challenges, and build a brighter future for our team and our partners. Let's make 2025 our best year yet!

PROJECT HIGHLIGHT - NCSPA INTERMODAL YARD REPAIR

Progress on Phase 1 is well underway. We have completed the demolition of the concrete loading ramp, three additional slabs, and the existing underground utilities. Site leveling is currently underway to prepare for concrete reclamation, ensuring a stable foundation for future development. Also, the installation of the first stormwater infiltration basin is in progress, representing a crucial step toward effective water management and environmental sustainability. These advancements demonstrate our commitment to precision, quality, and delivering a project that aligns with the port's long-term growth and capabilities.

« STAYING SAFE IN COLD WEATHER »

Inspect Equipment Daily: Perform regular checks to ensure everything is functioning properly.

Prevent Slips and Falls: Keep walkways clear of snow and ice, and use salt or sand for traction. Wear boots with non-slip soles to reduce the risk of accidents.

Layer Up for Warmth: Wear insulated, quick-drying layers to stay warm & dry. Protect extremities with gloves, hats, and waterproof boots.

We are thrilled to share that our employees' generosity and hard work have made a significant impact this holiday season.

Through our efforts, we raised enough money to donate 135 bikes to Weller's Wheels, a program dedicated to ensuring every child experiences the joy of Christmas. Thank you to our incredible team for demonstrating the true spirit of giving and making a difference in our community!
